SKILLS

- **Languages:** Python, C++, C
- **Frameworks:** HTML5, CSS3, Flask, Streamlit
- **Tools/Platforms:** Git, GitHub, VS Code, Jupyter Notebook, Linux, macOS, AndroGuard
- **Soft Skills:** Problem-Solving, Adaptability, Self-directed, Collaboration

PROJECTS

- **Cinematic Sentiment DistilBERT** | [GitHub](#) | [Live](#) Mar'26–Apr'26
 - Fine-tuned a pre-trained DistilBERT model (bert-base-uncased) on 50K IMDB movie reviews for binary sentiment classification, achieving **91.2% accuracy** and **91.2% F1-score** on the test set.
 - Built an end-to-end NLP pipeline (tokenization, attention masks, dynamic padding) using PyTorch and Hugging Face Transformers for efficient preprocessing and inference.
 - Deployed as an interactive Streamlit web app on Hugging Face Spaces with real-time inference, confidence scores, batch text analysis, and CSV export of results.

Tech: Python, PyTorch, Hugging Face Transformers, DistilBERT, Streamlit, Hugging Face Spaces

- **Android Malware Detection System using Machine Learning** | [GitHub](#) | [Live](#) Aug'25–Dec'25
 - Developed an Android Malware Detection System using a multi-model voting ensemble (Random Forest, Gradient Boosting, Logistic Regression), achieving **97.4% test accuracy** and **97% F1-score** on the TUANDROMD dataset (4,460+ apps).
 - Engineered 50+ permission-based and behavioral features (normalized risk scoring, tier-wise permissions, malicious pattern detection) and performed hyperparameter tuning, keeping the train–test accuracy gap under 2% for strong generalization.
 - Deployed a full-stack Flask web application with a static APK scanner, interactive sandbox simulator, developer API console, and PDF compliance report export, containerized with Docker on Hugging Face Spaces.

Tech: Python, Scikit-learn, Flask, Docker, Feature Engineering, Model Evaluation SHAP, Androguard.

- **IPO Allotment Prediction Model** | [GitHub](#) | [Live](#) Jun'25–Jul'25
 - Built an end-to-end ML pipeline predicting IPO allotment probability from pre-IPO parameters (subscription ratio, issue size, category), achieving 62.50% accuracy on historical data.
 - Engineered 6 features from raw market data through cleaning and EDA, identifying subscription ratio and category as the strongest predictors of allotment.
 - Deployed an interactive Streamlit app on Hugging Face Spaces for real-time prediction, allowing users to input IPO parameters and get instant results.

Tech: Python, Pandas, NumPy, scikit-learn, Streamlit, Data Preprocessing, Feature Engineering, EDA, joblib.

TRAINING

- Machine learning: From Basic to AI Applications | Lovely Professional University | [Certificate](#) Jun'25–Jul'25
- Developed and implemented end-to-end machine learning pipelines, from data preprocessing to model evaluation, achieving optimized performance through feature engineering and hyperparameter tuning.
 - Utilized advanced algorithms (Random Forest, Gradient Boosting, K-Means) with rigorous validation using cross-validation and metrics like F1-score and ROC-AUC.
 - Engineered and deployed ML models into real-world applications, demonstrating practical integration skills using Python (Pandas, NumPy, Scikit-learn).

CERTIFICATIONS

- Cloud Infrastructure 2025 Certified Foundations Associate | Oracle | [Certificate](#) Mar'26–Apr'26
- Computer Communications Specialization | Coursera | [Certificate](#) Jul'24–Nov'24
- The Bits and Bytes of Computer Networking | Coursera | [Certificate](#) Jul'24–Nov'24

ACHIEVEMENTS

- Self-directed research project benchmarking 5 dimensionality reduction methods (PCA, Isomap, LLE, UMAP, Autoencoder) on topologically challenging synthetic datasets (Swiss Roll, Torus, Möbius Strip) Jun'26–Present
- Solved 170+ Data Structures and Algorithms problems on LeetCode, GFG and NeoColab. Mar'26–Present

EDUCATION

- **Lovely Professional University** Punjab, India
• *Bachelor of Technology - Computer Science and Engineering; CGPA: 7.18* Aug'23–Present
- **Delhi Public School** Bhabua, Bihar
• *Intermediate; Percentage: 73%* Apr'20–Mar'21
- **DAV Public School** Ratwar, Bihar
• *Matriculation; Percentage: 77.17%* Apr-18–Mar'19
